### DOWNLOAD LATEST PRICE LIST

Pricing will be updated from time to time, kindly use this QR link to download the latest price list.

### LIST OF DISTRIBUTORS / STOCKISTS

For Malaysia : Penang, Selangor, Johor.

For international distributor please go to our website.

## GREEN CERTIFICATES

041-114-3588

PEFC/34-31-251

\*\*If PEFC certificate for a specified batch of products are required, the requirement must be specified in purchase order and are subject to approval depending on availability of raw materials.

## GOODS RETURN POLICY

Please inspect goods received carefully upon delivery before application, as goods return will only be entertained given that the panels have not been cut or used. Any claims shall be informed within 1 months from the date of delivery. Goods replacement will be arranged for any defective goods in 1 to 4 weeks from lodging date of the claim.

For more info, please contact us.

1220 x 2440mm  
 0.7mm  
 Please refer to Availability Chart

### Particle Board (Chipboard)

Type : E1, E2, CARB-P2 (EPA)  
 Bond : UF, MUF / V313 (16, 18mm)  
 Thickness : 9, 12, 15, 16, 18, 25mm  
 Size : 1220x2440mm, 1830x2440mm

### Plywood

Size : 1220x2440mm Only  
 Wood Species : Tropical Hardwood,  
 Light Weight  
 Bond : MR, WBP  
 Thickness : 3, 6, 9, 12, 15, 18, 25mm

### Edge Bands

1mm x 22mm x 200m  
 &  
 1mm x 44mm x 200m

Please refer to Availability Chart

### MDF

Type : E1, E2, CARB-P2 (EPA)  
 Bond : UF, HMR  
 Thickness : 3, 6, 9, 12, 15, 16, 18, 25mm  
 Size : 1220x2440mm ; 1830x2440mm

### PVC / Paper Laminated Board

Size : 1220x2440mm Only  
 Surface : Depends on PVC / Paper  
 Type : Chipboard, MDF, Plywood,  
 Blockboard  
 Thickness : Refer to Board Type

# OUR UNIQUE SOLUTION

\* INFORMATION FOR DESIGNERS & INDUSTRY MEMBERS

---

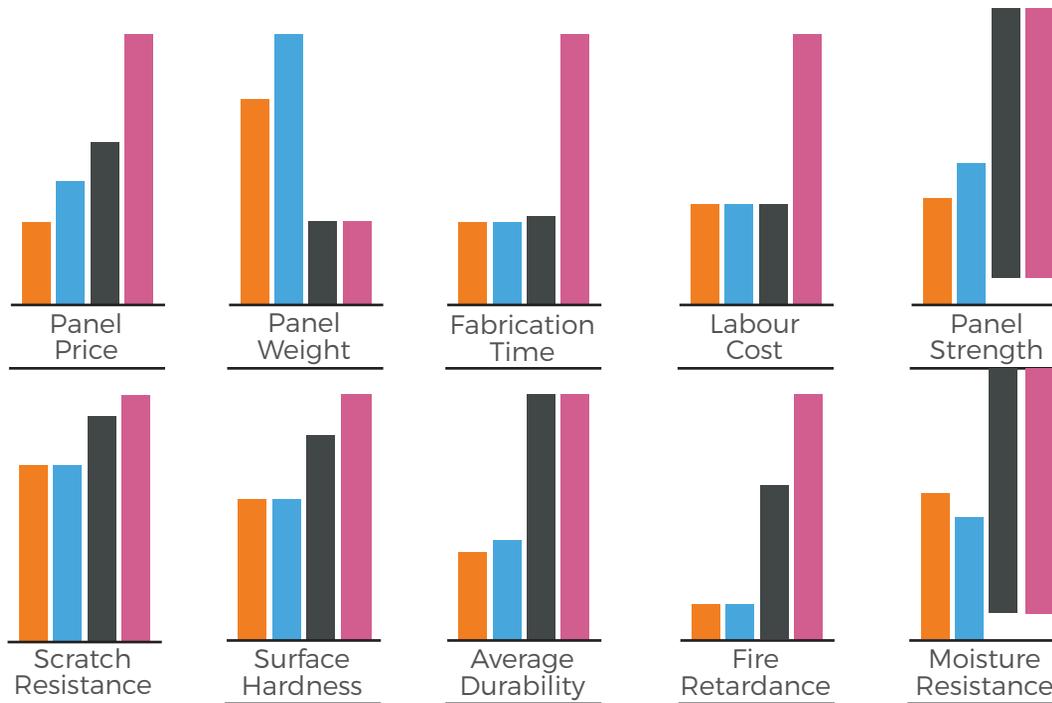

## FOR YOUR FREEDOM : TOTAL CONTROL OF QUALITY AND BUDGET

**Nilam** is the only supplier in the market with an integrated colour collection in all panel forms. We designed this solution for you to help you achieve greater flexibility and freedom when making decisions for your project.

The colours and designs you find in this catalogue are available in different panel forms. These panel types have their own set of strengths and weaknesses. For example, Melamine Faced Chipboard is economical, but its durability performance is not as good as other board types ; High Pressure Laminates (HPL) have great surface hardness, but it requires more labour and fabrication time. So how will you, as a designer, choose the most suitable material for your project ?

Here are some perspectives you can think from while making the right decision, below is a quick comparison overview of characteristics of 4 of the most common panel types for your reference. (see next page)

## COMPARISON CHART

 Melamine Faced Chipboard  
16mm MUF - Woodgrain

 LAMIPLY / LAMIBLOCK  
16mm MR - Woodgrain

 Melamine Faced MDF  
16mm HMR - Woodgrain

 High Pressure Laminates on Plywood  
16mm MR - Woodgrain
